

I am a student...

*and you definitely want to know
what I've learned.*

If I buy discount or an import

- It'll be a one-size-fits-all table
- Post-sale support will be little to none
- There's a greater likelihood of failure - no real testing.
- There's no real resale value.
- In a couple of years this table will likely be toast.

If I buy an OAKWORKS® MADE IN THE USA

- It'll be a custom-fit w/ perfect ergonomics.
- Post-sale support is amazing, they have certified MT's on staff.
- It'll be safer. They test every single portable table they sell.
- 5 year old OAKWORKS® tables have sold @ almost purchase price.
- This table will last my whole career.
